

QRPatrol Guards Editor

The screenshot shows the QR Patrol Guards Editor interface in a browser window. The browser address bar shows the URL `kerveroslive.com/qrpatrol/qr-cp-guards.php`. The page title is "QR Patrol Guards editor".

The main content area displays a table with the following data:

Guard code	Guard name	Kerveros code	Active
8700400032	Test1	FFFD	YES
demo	Demo guard	GU01	YES

Callouts provide the following information:

- Guard code:** Guard codes, to be used on smartphone application to identify the guard. Can't be edited.
- Guard name:** Double click to edit guard name.
- Kerveros code:** Double click to edit Kerveros code. Only useful if using Kerveros CMS software for Central monitoring stations.
- Submit changes:** After any editing press here to save changes.
- Export to Excel file:** Export guards details to Excel file.

At the bottom of the page, there are three buttons: "Submit changes", "Refresh", and "Export to Excel file".
