

QRPatrol main screen

The screenshot shows the QRPatrol main screen in a browser window. The browser is Opera, and the address bar shows the URL <https://kerveroslive.com>. The page features a navigation menu with links for Home, News, About Us, Contact Us, Support, Application Activation, and S.R.C Kerveros. The main content area is titled "Kerveros QRPatrol" and includes a sidebar with a "Kosdemo" section containing a list of links: Received events, Kerveros QRPatrol (checked), Kerveros QRPatrol events browser, Kerveros QRPatrol code editor, Kerveros QRPatrol Guard utility, My account, User settings, and Log out. The main content area has three columns: "Kerveros QRPatrol events browser" (with a map icon), "Kerveros QRPatrol code editor" (with a QR code icon), and "Kerveros QRPatrol Guard utility" (with a person icon). Below these columns is a "Transaction Reports" section with a "Select date" form containing "From Date" (13-08-2013) and "To Date" fields, and an "Execute report" button. A "DEMO" button with the text "Click here for demo points" is also present. The page footer shows the URL <https://kerveroslive.com/qrpatrol/userqrpatrol.php>.

QRPatrol events browser using lists and Google maps

Export the events of a specific date range to Excel File
